MOOD: everything's better with ninjas

MUSIC: Amanda Palmer - Runs in the Family

My gmail account has ninjas!*

Awesome!

But not as awesome as this girl:

Check out those shoulders. (This is probably harassment of a coworker, isn't it?)

(You can't see it, but her bra straps match the "OM" on the front of her tank top. Apparently the Wabbit is corrupting her, too.)

*Themes! There are themes! An infestation of ninjas is only the beginning.

This looks like a
good idea.

This.

Shoulders, ho. It's the giant lat on the right, from that corner grip, that makes me say, "Who the hell is that?"

Because, y'know, you don't usually see your own lats.

...was that a trace of a positive body image I just detected?

(If you say one uncomplimentary word about your thighs, I'm making you eat my cheesecake.)

...

...That's not a very good deterrent. *g*

(The pants aren't as tight as the harness makes them look, with its mighty Butt Cheek Custom Framing. 8>P But as a matter of fact, those thighs are now so much with the muscle, they don't wiggle when I walk--they *flex*. If they were green, they'd belong to She-Hulk.)

That was why I declared you forbidden from maligning them. But it appears I no longer have to enforce this office.

Cheesecake?

B! F! F!

(And you haven't commented on the bra strap observation yet. *g*)

First, I was waiting for you to kill him for staring at your bra straps. (Although really? Electric blue? Marriage is good for you!)

Seriously, I had trouble buying it. It cost so much and looks so nice that I feel guilty not wearing it *outside* the shirt.

Nobody's butt looks good in a climbing harness. It's the law.

[November 20 2008, 19:48:23 UTC](#) [COLLAPSE](#)

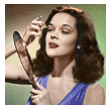

(does it count if you don't have one?)

(a climbing harness?)

 [Ometotchtli](#)

[November 20 2008, 19:57:27 UTC](#) [COLLAPSE](#)

Yeah, that. Because I don't know anybody who pads his desk chair because it makes his butt bones sore.

You try sitting on your pelvic girdle and see how you like it. Besides, sheepskin is very stylish.

 [trollcatz](#)

[November 20 2008, 20:03:29 UTC](#) [COLLAPSE](#)

Several million sheep can't be wrong!

 [standuponit](#)

[November 20 2008, 19:37:53 UTC](#) [COLLAPSE](#)

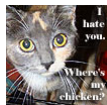

No, you usually don't. You were on that arrete for all you were worth.

 [trollcatz](#)

[November 20 2008, 19:49:31 UTC](#) [COLLAPSE](#)

And given what I had to do to get there, it's NO SURPRISE.

 [standuponit](#)

[November 20 2008, 19:50:54 UTC](#) [COLLAPSE](#)

You made it look easy.

 [trollcatz](#)

[November 20 2008, 19:54:55 UTC](#) [COLLAPSE](#)

Awww. I was just determined not to give Tasha an opportunity to call "Woof, woof!" Declaring No Dogging Day is cruel, but effective. *g*

 [standuponit](#)

[November 20 2008, 19:56:01 UTC](#) [COLLAPSE](#)

Well, it kept me on the easy routes!

 [trollcatz](#)

[November 20 2008, 20:02:23 UTC](#) [COLLAPSE](#)

Your idea of "easy route" includes the 5.7 that anyplace else would rate a 5.9?

(Really, somebody ought to talk to Archie about letting Stringy Jay rate the routes...)

 [standuponit](#)

[November 20 2008, 20:05:39 UTC](#) [COLLAPSE](#)

(5.9 is an easy route. Or it used to be, anyway. And someday, by god, it will be again.)

 [trollcatz](#)

[November 20 2008, 20:11:37 UTC](#) [COLLAPSE](#)

And I think your reach is even longer than Jay's. If someone shows up asking you to stick your hand down a dolphin's throat, call me so I can watch, okay?

 [standuponit](#)

[November 20 2008, 20:13:25 UTC](#) [COLLAPSE](#)

As long as they put towels around its teeth.

(Seriously. Poor dolphins.)

 [standuponit](#)

[November 20 2008, 20:15:13 UTC](#) [COLLAPSE](#)

Seriously, Jay's even taller than I am. And he's got more wingspan.

But I scrunch up better, so I can get my feet up on the same holds you use. Which he can't do.

I won't tell Jay about the yoga. Your advantage is safe with me!

Ninjas!!!! So cool. Thanks!

What's that theme named? I found it once, but it is apparently too stealthy for me to find it again. :)

iry.

November 26 2008, 20:18:07 UTC COLLAPSE

It's stealthily called "Ninja" and is the third one from the end on my list. (that's after clicking on Settings and Themes to get to the theme choices) It's very much the best of the themes on offer at the moment both from a coolness perspective (some of the pictures change depending on the time of day and they're really cute) and for usability/clarity.

 batwrangler

November 26 2008, 23:44:04 UTC COLLAPSE

That's what I *thought* it was called: Turns out iGoogle has a divergent set of themes that includes "Tea House" but not "Ninja". (Which is ok because having different themes for iGoogle and Gmail gives me a clear visual indicator which I'm using at the moment.)

Thanks!
